CRITICAL THINKING

Question . Analyze . Decide

GLOBAL CHANGEMAKERS NETWORK
Curating collaborative partnerships 4 a better anthropocene.

"In a world filled with noise, where we are bombarded by information constantly from every direction,

How do we separate fact from fiction ?
How do we find clarity amidst the chaos ?"

"The answer is Critical Thinking. It's not just about solving problems — it's about questioning, analyzing, and synthesizing information in ways that make YOU

Insightful . Intentional . Impactful
in your decisions."

1. What's the evidence ?"
2. What are the implications ?"
3. Is there another perspective ?"

"Critical Thinking is the way to ask the right questions, not just accept what you're told."

Critical Thinking equips you with the tools to

1. Break down complex issues
2. Challenge assumptions
3. Recognize biases — both in the world around you and within your own mind.

"In this course, you won't just learn to think — you'll learn to think better.
You'll develop the skills to approach challenges with

Confidence . Creativity . Clarity “
